

OSHA 10-Hour Training for Construction

Presented by Jim Brauner, Brauner Safety Services
December 9–10 , 2016

OSHA 10-Hour training for construction teaches recognition, avoidance, abatement and prevention of safety and health hazards in workplaces. This course also provides information on workers' rights, employer responsibilities, an introduction to OSHA, fall protection, ladders and scaffolding, project documentation, supervisory techniques and OSHA Focus Four Construction Hazards. It was also designed to help workers stay up-to-date with their OSHA safety requirements and is suitable for workers, supervisors and management. Students who complete the class successfully will receive the OSHA 10-Hour Card.

**The course is two days. Cost per person \$120.
FRSA-SIF members receive one FREE registration.**
