

# ENDOWMENT PROGRAM

Reinvesting in the Industry

## What Is The Endowment?

The FRSA Educational and Research Foundation Endowment Program seeks to facilitate progress in the roofing industry through funding for research, quality education and scholarships.

The Endowment Program is designed to enhance the Foundation's ability to:

- Award a greater number of **scholarships** to students of merit
- Increase the frequency and quality of industry-related seminars for continuing **education** credit
- Provide funding for **workforce development** and employee training
- Fund **research** projects on crucial and innovative roofing topics

## Why Should I Give?

## How Do Contributions Work?

An endowment can be established in any amount and contributions of \$25,000 or more entitles the contributor a seat on the Endowment Board of Governors, and a voice in how endowed earnings can be best utilized. Contributions can also be made in honor of a friend or loved one with a significant history of involvement in the industry. Contributions can be designated for scholarships, education, research, or can be undesignated – which permits the Board of Governors to designate earnings where needed.

## THE HISTORY OF THE ENDOWMENT PROGRAM

The Endowment Program was originally set in motion in 2003 when TAMKO Building Products, LLC donated \$25,000 to the Educational Foundation. In 2005, the Endowment Program benefited from the generous contribution of \$100,000 from the FRSA Self Insurers Fund. The Foundation Trustees seized that opportunity to launch the Endowment Program and deemed the unsolicited donation to be the first Governor Level contribution.

## SCHOLARSHIPS

Since 1994, the Foundation has awarded over \$258,000 in scholarships. The Foundation Trustees and the Endowment Board of Governors' goal is to be in a position to award even larger amounts to students whose area of study is geared toward industry related subjects.

## CONTINUING EDUCATION SEMINARS

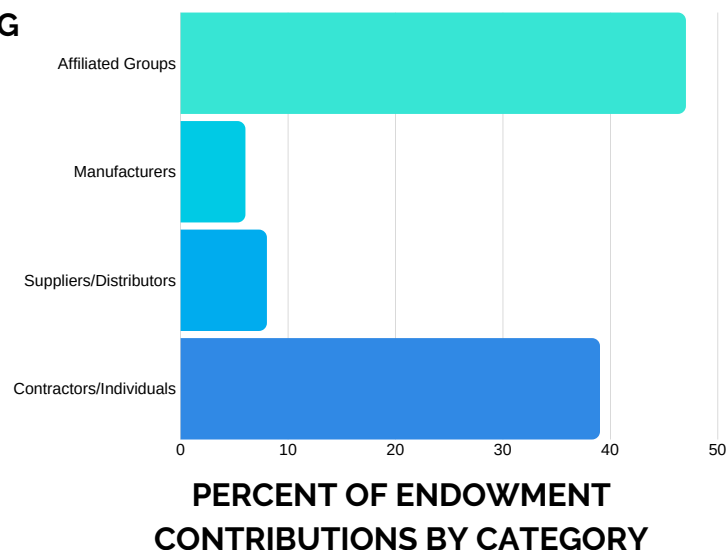

The Foundation has established itself as a leader in the area of continuing education for roofing contractors and other industry-related professionals. The Foundation offers quality classroom instruction with knowledgeable, industry-wise instructors while maintaining low registration fees. With the addition of the FRSA Educational Foundation Training Center, the Foundation is able to offer even more educational opportunities to the industry.

## WORKFORCE DEVELOPMENT & EMPLOYEE TRAINING

Endowment earnings designated for education provide the means to train technicians on the guidelines and procedures of various roof applications.

## RESEARCH

There is a constant need for competent research in the Florida roofing industry. The Endowment Board of Governors enables the Educational Foundation to fund research projects each year.
